Billetproof Clutch Cover Kawasaki KX250F

Congratulations, you have just purchased the finest clutch cover available. All Hinson Clutch Components are manufactured from T-6 aircraft aluminum with tolerances to aircraft specifications. Used by Team Honda, Team Pro Circuit Kawasaki, Team Kawasaki and Team Suzuki. You can count on all our parts being race and championship proven.

Instructions:
1. Remove stock clutch cover.
2. Inspect the gasket and install with your new Hinson Clutch Cover just as your stock cover came off.
3. Readjust your free play to have an 1/8-1/4” at the lever and perch.

For the best performance and life from your clutch assembly, we recommend you install new Hinson clutch plates and use a petroleum based oil. We also recommend that you change your oil after each time you ride and that you soak your clutch plates in oil before you install them. Use of Kevlar or Carbon Fiber clutch plates will cause excessive wear and may void your warranty.
