1.CLUTCH INSTALLATION

Remove stock cover

Remove stock spring and retainer, pressure plate and inner hub from engine

Remove spring seat from stock pressure plate face

Install inner hub, Tighten nut to manufactures specification then bend over lock tab

Install fiber clutch plates and steel clutch plates and stock drive sleeve pins

Install pressure plate, spring seat with proper side up (has up stamped on face), spring and retainer and tighten bolts to manufactures specification (we recommend the 3rd setting on the spring ring)

Install Hinson cover and be sure to inspect the o ring for any damage

Refill with engine oil

Warranty information

All merchandise manufactured by Hinson Clutch Components is guaranteed against defects in material and workmanship for a period of six months from the original date of purchase. Use of Kevlar and carbon fiber clutch plates will cause excessive wear and will void your warranty. Hinson Clutch Components will not warranty any product that has been modified, or where the product became defective due to improper installation, improper use, or any other misuse of the product. Hinson Clutch Components shall not be liable for any other damages caused by any defects in the product, whether incidental, consequential or otherwise. If your product is defective we will, at our discretion, repair or replace the product after it is returned to Hinson Clutch Components for a warranty inspection. Any request for warranty assistance will require your original receipt or acceptable proof of purchase. Hinson Clutch Components liability is limited to the cost of repair or replacement of the product. All warranty items will be viewed and acted upon at the discretion of Hinson Clutch Components.
