1993-1999 YAMAHA YZ250 PRESSURE PLATE

Congratulations, you have just purchased the finest pressure plate available. Manufactured from T-6 aircraft aluminum with tolerances to aircraft specifications and akadized for improved durability. Used by Team Honda, Team Suzuki, Team Pro Circuit Kawasaki,, these are the same components in Jeremy McGrath's, Greg Albertyn's, and Ricky Carmichael's race bikes

Instructions:
1. Remove stock pressure plate from clutch assembly.
2. Re-install Hinson Racing pressure plate using all other stock parts.

For the best performance and life from your clutch assembly, we recommend you install new Hinson clutch plates and use a petroleum based 80w-80 Racing Transmission Oil with your new clutch basket. Use of Kevlar or Carbon Fiber clutch plates will cause excessive wear and may void your warranty. We recommend that you soak your clutch plates in oil before you install them and that you change your oil after each time you ride.
