Billetproof Clutch Cover

Congratulations, you have just purchased the finest clutch cover available. All Hinson Clutch Components are manufactured from T-6 aircraft aluminum with tolerances to aircraft specifications. Used by Team Honda, Team Pro Circuit Kawasaki, Team Kawasaki. You can count on all our parts being race and championship proven.

Instructions:

1. Remove stock clutch cover.
2. Inspect the O-ring and install in your new Hinson Clutch Cover.
3. Install your new Hinson clutch cover exactly as you removed your old cover using the provided M6x16 bolt. This bolt will be installed in the lower center counter bored hole in place of the OEM bolt. *(Notice failure to add the provided bolt to this hole could cause damage or oil leakage)

For the best performance and life from your clutch assembly, we recommend you install new Hinson clutch plates and use a petroleum based oil. We also recommend that you change your oil after each time you ride and that you soak your clutch plates in oil before you install them. Use of Kevlar or Carbon Fiber clutch plates will cause excessive wear and may void your warranty.

Thank you for purchasing a Hinson Clutch Components product. If you have any questions or need technical assistance, please call us at (909) 946-2942, Monday through Friday between the hours of 7:00AM-4:00PM Pacific Standard Time or check us out at www.hinsonracing.com.
