

Warranty information

All merchandise manufactured by Hinson Clutch Components is guaranteed against defects in material and workmanship for a period of six months from the original date of purchase. Use of Kevlar and carbon fiber clutch plates will cause excessive wear and will void your warranty. Hinson Clutch Components will not warranty any product that has been modified, or where the product became defective due to improper installation, improper use, or any other misuse of the product. Hinson Clutch Components shall not be liable for any other damages caused by any defects in the product, whether incidental, consequential or otherwise. If your product is defective we will, at our discretion, repair or replace the product after it is returned to Hinson Clutch Components for a warranty inspection. Any request for warranty assistance will require your original receipt or acceptable proof of purchase. Hinson Clutch Components liability is limited to the cost of repair or replacement of the product. All warranty items will be viewed and acted upon at the discretion of Hinson Clutch Components.

For the best performance and life from your clutch assembly, we recommend you use a petroleum based oil, and that you change your oil after each time you ride.

Thank you for purchasing a Hinson Clutch Components product. If you have any questions or need technical assistance, please call us at (909) 946-2942, Monday through Friday between the hours of 7:30AM-4:30PM Pacific Standard Time or check us out at www.hinsonracing.com.

Thank you very much for purchasing a Hinson Clutch Component!

BILLETPROOF CLUTCH COVER

KTM 65 SX

Congratulations, you have just purchased the finest clutch cover available. All Hinson Clutch Components are manufactured from T-6 aircraft aluminum with tolerances to aircraft specifications. Used by Team Honda, Team Pro Circuit Kawasaki, Team Kawasaki and Team Red Bull KTM. You can count on all our parts being race and championship proven.

Instructions:

1. Drain the transmission oil
2. Remove the oil level check bolt and crush washer and set aside this will be used on the new Hinson cover
3. Remove the 3 bolts holding the slave cylinder on and remove slave cylinder from the oem cover and drape to the side. (be sure to not pull clutch lever in while slave cylinder is removed or you could push piston out and have to re-bleed the system)
4. Remove stock clutch cover and remove the o-ring gasket. This will be used on your new Hinson cover
5. Inspect the o-ring for any damage before reusing and install on your new Hinson clutch cover.
6. Install the new Hinson cover and torque your bolts to your oem specification.
7. Grease the rubber diaphragm and o-ring on the slave cylinder and push your slave cylinder into the new Hinson cover (see fig 1 & 2) then add blue Loctite 243 to the threads of the 3 bolts holding the slave onto the cover (see fig 4) and torque to 72in/lbs or 8NM and pump the clutch lever.
8. Install your crush washer and oil level check bolt and torque to 72 in/lbs or 8nm (see fig 3)
9. Refill you engine with transmission oil
