Congratulations, you have just purchased the finest fiber, steel and spring clutch pack available. Hinson Clutch Components are used by Team Honda, Team Suzuki and Team Pro Circuit Kawasaki.

Crucial Inspection

If your clutch has a judder spring and seat ring located at the bottom of your inner hub, these need to be removed.

Instructions:

1. Remove clutch plates and springs from packaging.
2. Install fiber and steel plates. Starting and ending with fiber plates.
3. Alternating with the steel plates
4. Re-install pressure plate, your new Hinson clutch springs, and all other stock components.

We recommend petroleum 80wt racing transmission oil, and that you change it after each time you ride. Also we recommend soaking your clutch plates in oil the same type of oil before you install them.
