Congratulations, you have just purchased the finest fiber, steel and spring clutch pack available. Hinson Clutch Components are used by Team Honda, Team Suzuki and Team Pro Circuit Kawasaki.

Crucial Inspection

If your clutch has a jutter spring and seat ring, located at the bottom of your inner hub, this needs to be removed.

Instructions:

1. Remove clutch plates and springs from packaging .
2. Install (1) of the plates marked black
3. Install (7) steel and or aluminum plates, alternating with (6) fiber plates.
4. Install (1) black marked plate
5. Re-install pressure plate, your new Hinson springs, and all other stock components.

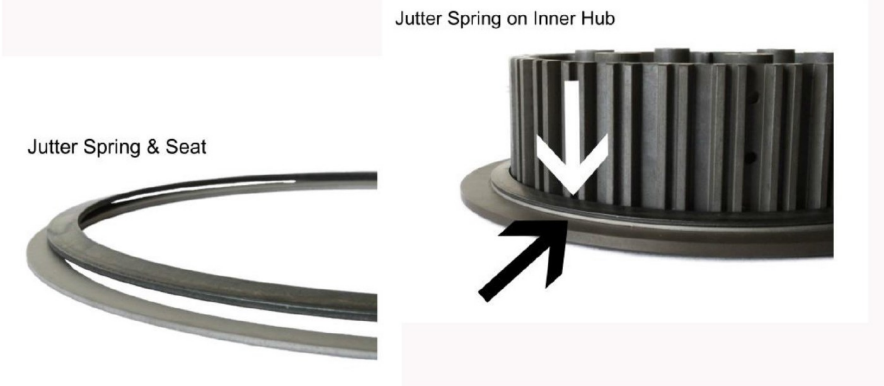

We recommend petroleum 80w-80 Racing Transmission Oil, and that you change it after each time you ride. Also we recommend soaking your clutch plates in oil before you install them.
