### FSC Clutch Plate & Spring Kit Yamaha YZ250F

Congratulations, you have just purchased the finest fiber, steel and spring clutch pack available. Hinson Clutch Components are used by all of the top Factory Teams in the US and many other teams around the globe.

#### Crucial Inspection

If your clutch has a jutter spring located towards the bottom of your inner hub, this needs to be removed.

#### **Instructions:**

1. Remove clutch cover.
2. Remove spring bolts, springs, and pressure plate.
3. Remove clutch plates and judder spring which you will not reuse.
4. Remove Hinson clutch plates and springs from package.
5. We also recommend you soak your clutch plates before you install them with a petroleum base 10w-40 racing engine oil.
6. Separate fiber plates into (8) wide surface plates and (1) narrow surface plate.
7. Install (8) wide surface plates, alternating with (8) steel plates plates.
8. Install the (1) narrow plate last. Note: this will be against the pressure plate.
9. Re-install pressure plate, your new Hinson clutch springs, and all other stock components.

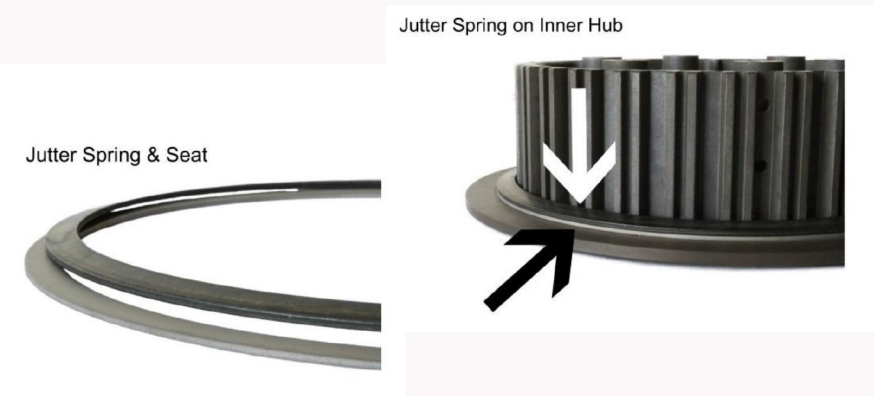

We recommend petroleum 10w-40 Racing Engine Oil, and that you change it after each time you ride. Also we recommend soaking your clutch plates in oil before you install them.

Thank you for purchasing a Hinson Clutch Components product. If you have any questions or need technical assistance, please call us at (909) 946-2942, Monday through Friday between the hours of 7:00AM-4:00PM Pacific Standard Time or check us out at [www.hinsonracing.com](http://www.hinsonracing.com).

#### **Crucial Inspection**

If your clutch has a jutter spring and seat located at the bottom of your clutch pack against the inner hub, **these both need to be removed.**

#### **Warranty information**

All merchandise manufactured by Hinson Clutch Components is guaranteed against defects in material and workmanship for a period of six months from the original date of purchase. You must register your product at [www.hinsonracing.com](http://www.hinsonracing.com) to activate your warranty. Use of Kevlar and carbon fiber clutch plates will cause excessive wear and will void your warranty. Hinson Clutch Components will not warranty any product that has been modified, or where the product became defective due to improper installation, improper use, or any other misuse of the product. Hinson Clutch Components shall not be liable for any other damages caused by any defects in the product, whether incidental, consequential or otherwise. If your product is defective we will, at our discretion, repair or replace the product after it is returned to Hinson Clutch Components for a warranty inspection. Any request for warranty assistance will require your original receipt or acceptable proof of purchase. Hinson Clutch Components liability is limited to the cost of repair or replacement of the product. All warranty items will be viewed and acted upon at the discretion of Hinson Clutch Components.

Thank you very much for purchasing a Hinson Clutch Component!
