1987-2007 YAMAHA YFZ350 BANSHEE 8 PLATE INNER HUB

Congratulations, you have just purchased the finest inner hub available. Manufactured from T-6 aircraft aluminum with tolerances to aircraft specifications and anodized for improved durability. These are the same parts used by Team Honda, Team Suzuki, and Team Pro Circuit Kawasaki, and factory race teams worldwide.

***Special Note: Must be used with Hinson Racing clutch basket part # H016 or H120.**

Instructions:

1. Remove the stock basket, pressure plate, and inner hub from clutch assembly.
2. Re-install Hinson Clutch Components clutch basket, inner hub, torquing mainshaft nut to Yamaha's torque specification.
3. Install 8 Hinson Clutch Components fiber and 7 Hinson Clutch Components steel plates. (Note: if you choose to use OEM clutch plates the pressure plate may hit the inside of the clutch cover, and grinding on the cover may be necessary).
4. Install a Hinson Clutch Components pressure plate making sure to align the dots on the pressure plate and inner hub, with OE springs and bolts.
5. Adjust the freeplay at the clutch lever and perch to 1/8 inch gap using the top hat adjuster first then the barrel adjuster on the perch.

For the best performance and life from your clutch assembly, we recommend you install new Hinson clutch plates, use a petroleum based Transmission Oil, and that you change your oil after each time you ride. We recommend you soak your clutch plates in oil before you install them. Use of Kevlar or Carbon Fiber clutch plates will cause excessive wear and may void your warranty.

Also available for this model:

- H016 1987-2006 clutch basket with cushions

Warranty information

All merchandise manufactured by Hinson Clutch Components is guaranteed against defects in material and workmanship for a period of six months from the original date of purchase. You must register your product at www.hinsonracing.com to activate your warranty. Use of Kevlar and carbon fiber clutch plates will cause excessive wear and will void your warranty. Hinson Clutch Components will not warranty any product that has been modified, or where the product became defective due to improper installation, improper use, or any other misuse of the product. Hinson Clutch Components shall not be liable for any other damages caused by any defects in the product, whether incidental, consequential or otherwise. If your product is defective we will, at our discretion, repair or replace the product after it is returned to Hinson Clutch Components for a warranty inspection. Any request for warranty assistance will require your original receipt or acceptable proof of purchase. Hinson Clutch Components liability is limited to the cost of repair or replacement of the product. All warranty items will be viewed and acted upon at the discretion of Hinson Clutch Components.

Important! Warranty registration

Products must be registered in order to be eligible for warranty. Please log onto www.hinsonracing.com to activate your warranty registration. You will need to make note of your serial number, the small 8 digit number 180 degrees from Hinson Clutch Components on your part, as you cannot register your product without it.

Thank you very much for purchasing a Hinson Clutch Component!
