1996-2002 SUZUKI RM250 INNER HUB

Congratulations, you have just purchased the finest inner hub available. Manufactured from T-6 aircraft aluminum with tolerances to aircraft specs and anodized for improved durability. Used by Team Honda, Team Suzuki, and Team, Pro Circuit Kawasaki, these are the same components in Jeremy McGrath's, Travis Pastrana's, and Ricky Carmichael's race bikes

Instructions:

1. Remove stock inner hub from clutch assembly.
2. Re-install Hinson Clutch Components inner hub using all other stock parts.

For the best performance and life from your clutch assembly, we recommend you install new OEM clutch plates and Hinson 80w-80 Racing Transmission Oil and that you change your oil after each ride. Use of Kevlar and Carbon Fiber clutch plates will cause excessive wear and can void your warranty. Also we recommend you soak your new clutch plates in oil before installing them.

Also available:

H192 – 1996-2004 RM250 Clutch Basket
H045 – 1996-2002 Rm250 Pressure Plate
T080-01 – Hinson 80w-80 Racing Transmission Oil

Thank you for purchasing a Hinson Clutch Components product. If you have any questions or need technical assistance, please call us at (909) 946-2942 or check us out at
