2005-2008 KTM250SXF INNER HUB

Congratulations, you have just purchased the finest inner hub available. Manufactured from T-6 aircraft aluminum with tolerances to aircraft specs and anodized for improved durability. Used by Team Honda, Team Suzuki, and Team Pro Circuit Kawasaki.

SPECIAL NOTE: If your clutch comes with a jetter spring and seat. You will not reuse them with your new Hinson inner hub

Instructions:

1. Remove stock inner hub from clutch assembly.
2. Re-install Hinson Clutch Components inner hub using all other stock parts.

For the best performance and life from your clutch assembly, we recommend you install new Hinson clutch plates. We also recommend using a petroleum based oil with your new inner hub and that you change it after each time you ride. We also recommend you soak your clutch plates before you install them. Use of Kevlar or Carbon fiber clutch plates will cause excessive wear and could void your warranty.
