H130-IH-8602 REPLACEMENT INNER HUB

Congratulations, you have just purchased the finest inner hub & pressure plate available. Manufactured from T-6 aircraft aluminum with tolerances to aircraft specifications and anodized for improved durability. Used by Team Honda, Team Suzuki, and Team Pro Circuit Kawasaki.

***MUST BE USED IN HINSON 8 PLATE KIT OR DAMAGE WILL OCCUR**

Crucial Inspection

If your clutch has a jutter spring and seat ring, located at the bottom of your inner hub, this needs to be removed

Instructions:

1. Drain engine oil and coolant
2. Remove primary cover and gasket (* note a new primary cover gasket will be required)
3. Remove your springs, Hinson pressure plate, and plates
4. Remove your existing Hinson inner hub
5. Install the new Hinson clutch components inner hub, being sure to torque to your manufacturers specification then bend the lock washer tab over.
6. Reinstall your clutch stack and Install your HINSON pressure plate
7. Install clutch springs and bolt, torqueing them to manufacturers specifications.
8. Install primary cover and new gasket
9. Refill engine with oil and coolant adjust free play to 1/8-1/4"

For the best performance and life of your clutch assembly, we recommend you use Hinson clutch plates, Use petroleum based 80wt transmission oil and that you change your oil after each time you ride. We recommend you soak your clutch plates, in oil, before you install them. Use of Kevlar and Carbon Fiber clutch plates will cause excessive wear and may void your warranty.
