H472-IH-1801 **INNER HUB**

Congratulations, you have just purchased the finest inner hub available. Manufactured from T-6 aircraft aluminum with tolerances to aircraft specifications and akadized for improved durability.

Instructions:

1. Remove stock spring retainer & spring, pressure plate, clutch pack, drive pins, and inner hub from engine
2. Install Hinson inner hub, lock washer, and nut. Tighten nut to manufactures specification then bend over lock tab. We also recommend taking a small flat punch and tap the ear that locks in the inner hub in towards the center of the hub to prevent it from coming out of inner hub after nut is tightened.
3. Re-Install fiber clutch plates and steel clutch plates and stock pins with small groove installed down into the inner hub. Be sure to start and end with the thin 1mm steel plate
4. Install stock pressure plate with the spring seat with proper side up (has top stamped on face), spring and retainer and tighten bolts to manufactures specification (#1 setting is stiffest and #3 is softest)
5. Reinstall cover inspecting o ring first for any damage

For the best performance and life of your clutch assembly, we recommend you use OEM clutch plates, and that you use a petroleum based oil and that you change your oil after each time you ride. We recommend you soak your clutch plates , in oil, before you install them. Use of Kevlar and Carbon Fiber clutch plates will cause excessive wear and may void your warranty .

Thank you for purchasing Hinson Clutch Components. If you have any questions or need technical assistance, please call us at (909) 946-2942 or check us out at WWW.HINSONRACING.COM

Warranty information

All merchandise manufactured by Hinson Clutch Components is guaranteed against defects in material and workmanship for a period of six months from the original date of purchase. You must register your product at www.hinsonracing.com to activate your warranty. Use of Kevlar and carbon fiber clutch plates will cause excessive wear and will void your warranty. Hinson Clutch Components will not warranty any product that has been modified, or where the product became defective due to improper installation, improper use, or any other misuse of the product. Hinson Clutch Components shall not be liable for any other damages caused by any defects in the product, whether incidental, consequential or otherwise. If your product is defective we will, at our discretion, repair or replace the product after it is returned to Hinson Clutch Components for a warranty inspection. Any request for warranty assistance will require your original receipt or acceptable proof of purchase. Hinson Clutch Components liability is limited to the cost of repair or replacement of the product. All warranty items will be viewed and acted upon at the discretion of Hinson Clutch Components.

Important! Warranty registration

Products must be registered in order to be eligible for warranty. Please log onto www.hinsonracing.com to activate your warranty registration. You will need to make note of your serial number, the small 8 digit number 180 degrees from Hinson Clutch Components on your part, as you cannot register your product without it.

Thank you very much for purchasing a Hinson Clutch Component!
