Congratulations, you have just purchased the finest after market clutch basket available. Manufactured from T-6 aircraft aluminum with tolerances to aircraft specs and anodized for improved durability. Used by Team Honda, Team Red Bull KTM, and Team Pro Circuit Kawasaki.

SPECIAL NOTE: If your clutch comes with a jutter spring and seat. You will not reuse them with your new Hinson inner hub

Instructions:

1. Drain engine oil
2. Remove clutch cover
3. Remove spring bolts and clutch springs
4. Remove top hat
5. Bend lock washer tabs flat
6. Loosen main shaft nut and remove lock washer and washer behind it
7. Remove clutch plates
8. Remove stock inner hub from clutch assembly being sure not to remove thrust washer behind inner hub
9. Install new Hinson inner hub against the thrust washer, add the washer, lock washer, nut and torque to your manufactures recommendation then bend the ears of lock tab back over the nut
10. Install clutch plates
11. Install top hat
12. Install pressure plate, clutch springs, spring bolts and torque to your manufactures recommended specifications
13. Install the clutch cover being sure to inspect the o ring first
14. Refill with engine oil

For the best performance and life of your clutch assembly, we recommend you use Hinson clutch plates, and a petroleum based oil and that you change your oil after each time you ride. We recommend you soak your clutch plates in oil before you install them. Use of Kevlar and Carbon Fiber clutch plates will cause excessive wear and may void your warranty .

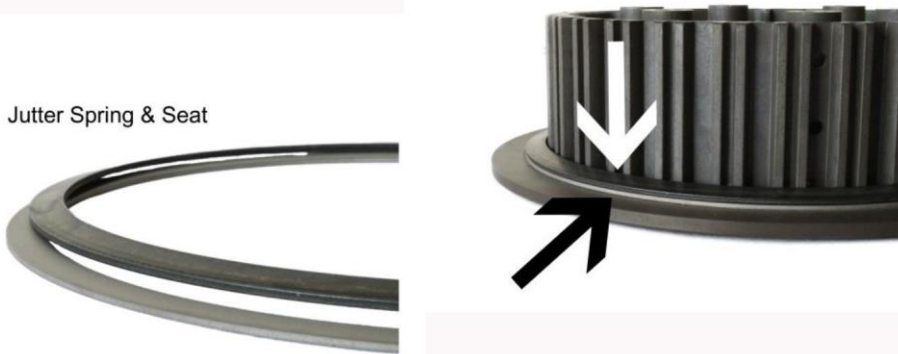

Thank you for purchasing a Hinson Clutch Components product. If you have any questions or need technical assistance, please call us at (909) 946-2942 or check us out at WWW.HINSONRACING.COM

If your clutch has a jutter spring and seat located at the bottom of your clutch pack against the inner hub, **these both need to be removed.**
