For the best performance and life from your clutch assembly, we recommend you install new Hinson clutch plates and oil with your new pressure plate. We recommend using a petroleum based 10w-40 Oil in your engine, and that you change it after each time you ride. We also recommend you soak your clutch plates before you install them. Use of Kevlar or Carbon fiber clutch plates will cause excessive wear and could void your warranty.

Thank you for purchasing a Hinson clutch component! If you have any questions or need any technical advise, please don't hesitate to call 909-946-2942 or check us out at WWW.HINSONRACING.COM
