H212 **YFZ450, YFZ450R, & YZ450F YAMAHA PRESSURE** **PLATE**

Congratulations, you have just purchased the finest pressure plate available. Manufactured from T-6 aircraft aluminum with tolerances to aircraft specifications and anodized for improved durability. These are the same parts used by Team Honda, Team KTM, and Team Pro Circuit Kawasaki.

Instructions:

1. Remove stock pressure plate from clutch assembly.
2. Re-install Hinson Clutch Components pressure using all other stock parts.

For the best performance and life from your clutch assembly, we recommend you install new Hinson clutch plates, and use a petroleum based oil, and that you change your oil after each time you ride. We recommend you soak your clutch plates in oil before you install them. Do not use Kevlar or Carbon Fiber clutch plates as they will cause excessive wear and may void your warranty.
