2000-2006 Yamaha YZ250/YZ426/YZ450F **Pressure Plate**

Congratulations, you have just purchased the finest pressure plate available. Manufactured from T-6 aircraft aluminum with tolerances to aircraft specifications and anodized for improved durability. These are the same parts used by Team Honda, Team Suzuki, Team Pro Circuit Kawasaki, and Team Yamaha.

Instructions:

1. Remove stock pressure plate from clutch assembly.
2. Re-install Hinson Clutch Components pressure using all other stock parts.

For the best performance and life from your clutch assembly, we recommend you install new Hinson clutch plates and Hinson 10w-40 Racing Engine Oil and that you change your oil after each time you ride. Use of Kevlar and Carbon Fiber clutch plates will cause excessive wear and can void your warranty.
