2009-2012 CRF450 PRESSURE PLATE

Congratulations, you have just purchased the finest pressure plate available. Manufactured from T-6 aircraft aluminum with tolerances to aircraft specifications and anodized for improved durability. Used by Team Honda, Team Suzuki, and Team Pro Circuit Kawasaki. These are the same components in Jeremy McGrath's, Travis Pastrana's, and Ricky Carmichael's race bikes

Instructions:

1. Remove stock pressure plate from clutch assembly.
2. Re-install Hinson Clutch Components pressure plate using all other stock parts.

For the best performance and life of your clutch assembly, we recommend you use Hinson clutch plates, and a petroleum based oil and that you change your oil after each time you ride. We recommend you soak your clutch plates in oil before you install them. Use of Kevlar and Carbon Fiber clutch plates will cause excessive wear and may void your warranty .
