YZ85 PRESSURE PLATE

Congratulations, you have just purchased the finest inner hub available. Manufactured from T-6 aircraft aluminum with tolerances to aircraft specs and anodized for improved durability. Used by Team Honda, Team Suzuki, and Team Pro Circuit Kawasaki. These are the same components in Ryan Villapoto, Trey Canard, and Chad Reed's race bikes

Instructions:

1. Remove stock inner hub from clutch assembly.
2. Re-install Hinson Clutch Components pressure plate using all other stock parts.

For the best performance and life from your clutch assembly, we recommend you install new Hinson clutch plates, and use a petroleum based 40 weight Engine Oil , and that you change your oil after each time you ride. We recommend you soak your clutch plates in oil before you install them. Do not use Kevlar or Carbon Fiber clutch plates as they will cause excessive wear and may void your warranty.
