Congratulations, you have just purchased the finest pressure plate available. Hinson Clutch Components are used by Team Honda, Team Suzuki and Team Pro Circuit Kawasaki.

Crucial Inspection

If your clutch has a jutter spring and seat ring, located at the bottom of your inner hub, this needs to be removed.

Instructions:

1. Remove stock pressure plate from clutch assembly.
2. Re-install Hinson Clutch Components pressure using all other stock parts.

For the best performance and life from your clutch assembly, we recommend you install new OEM clutch plates and petroleum based Oil and that you change your oil after each time you ride. Use of Kevlar and Carbon Fiber clutch plates will cause excessive wear and can void your warranty.
