1999-2005 HONDA TXR400EX PRESSURE PLATE & INNER HUB KIT

Congratulations, you have just purchased the finest pressure plate available. Manufactured from T-6 aircraft aluminum with tolerances to aircraft specifications and anodized for improved durability. Used by Team Honda, Team Suzuki, and Team Pro Circuit Kawasaki, these are the same components in Jeremy McGrath's, and Ricky Carmichael's race bikes.

Instructions:

1. Remove stock pressure plate from clutch assembly.
2. Remove bearing from stock pressure plate and replace in your new Hinson Racing billet pressure plate.
3. Re-install inner hub, pressure plate, fiber, steels.
4. Re-install Hinson Clutch Components pressure plate using all new springs and bolts parts.

Also available for this model:

T010 Hinson 10w-40 Engine Racing Oil

H056 Hinson clutch basket

For the best performance and life of your clutch assembly, we recommend you use OEM clutch plates, Hinson 10w-40 Engine Racing Oil and that you change your oil after each time you ride. We recommend you soak your clutch plates in oil, before you install them. Use of Kevlar and Carbon Fiber clutch plates will cause excessive wear and may void your warranty.

Thank you for purchasing a Hinson Clutch Components product. If you have any questions or need technical assistance, please call us at (909) 946-2942.
